Unity Movement Through Agriculture

## Detailed Project Description

The aim of this project is to cooperate and eradicate poverty in the current situation in Afghanistan, where more than 8 million families live in extreme poverty.

### The need for this project:

We are looking for donors to help us feed the children who are working as child labor.

We can help them to get back to their schools and continue their studies with focus and excellence. With this proposal, we are willing to feed 100 families who are in urgent humanitarian need. With our food distributed to 100 families, we can bring 288 children to school and continue their education. We will feed the family and have them send their child to school and will follow up on each of them. Education is the only way to fight against poverty.

### Project positively effect/help with this challenge:

Right now, Finding or providing food is challenging for 98% of the Afghanistan population. Poverty causes the most crime in towns and big cities. With the help of this project, we can positively bring changes to the life of at least 100 families. We will provide food to each family and at least one child of each family will go to school.

### Number of Children in this area:

According to WOF survey team the total number of children in these families are following:

Number of Children in this area			
Children in years of 1-6		Children in years of 7-13	
Total:	49 Children	Total:	288 Children
