## Executive Summary:

World Orphanage Foundation is creating internship program opportunities for freshly university graduates for different countries mainly focusing on Afghanistan. The training is in the fields of web development, web design, graphic designing, media, advocacy, marketing & sales, empowerment program, educational program, public and private policy, foreign policy, legal and photography. The duration of the internship program is for 3 to 6 months based on the learning capacity of interns.

## Internship Program:

World Orphanage Foundation not only committed to hold hands of homeless and poor but also to help in building infrastructure of societies who are youth. The foundation created internship opportunity for freshly university graduates to pursue their passion since November 2020.

These internship programs are in the fields of web development, web designing, graphic designing, sales & marketing, legal and photography. Duration for the internship is for the 3 to 6 months based on the intern learning and performance capacity. World Orphanage Foundation is taking master trainers to reach out to the interns and teach them not only their passion but also critical thinking to help them in their daily life.

After completion of the internship period, the qualified interns will be provided certificates with the USA standards. The foundation is considering to hire the interns within the foundation or refer them to other organization to pursue their passion and work.

## Afghanistan Batch:

World Orphanage Foundation has been helping Afghanistan since 10 years ago with basic human needs such as food, education, and importantly street and orphaned kids. Now it expands its helps to creating job opportunities for university graduates. It is very tough and challenging for Afghan students to find jobs without previous job experience but WOF provides this chance to them to follow their passion.

Until now, WOF has trained 2 batches of interns in the fields of web development, web design, graphic design, sales & marketing and legal for the duration of 3 and 6 months. All the qualified interns have been hired within the organization or referred to other organizations. Moreover, the interns who completed the internship program was provided completion certificate with the USA standard.

## The Interns Team:

The internship program created since November 2020. The two batches have been completed their internship program successfully and currently working within the organization.

The first batch training was started from November 2020 for 3 months of internship. The internship was in the fields of web development and web design, graphic design, IT, accounting, sales and marketing

The second batch of internship started from the month of February to April of 2021 and it was in the fields of web development and web design, graphic design, IT, accounting, sales and marketing. By the end of each program every successful intern was provided with certificate of completion with USA standards.
